

VOCABULARIO DE LAS PALABRAS LATINAS DEL LIBRO XVIII DEL *DIGESTO*

En este vocabulario se registran en orden alfabético todas las palabras latinas que aparecen en el libro XVIII del *Digesto*, con sus correspondientes referencias numéricas (título, párrafo y parágrafo) de los lugares donde aparecen. Cuando una palabra aparece más de una vez en un mismo lugar, se señala el número de veces que ocurre con un número exponencial.

Para facilitar la consulta, las palabras se han agrupado de conformidad con los siguientes criterios:

Los sustantivos se enuncian (en mayúsculas) en su forma de nominativo singular y seguidamente se presentan sus demás formas (en minúsculas *cursivas*), correspondientes a los distintos casos. El orden de los casos es el siguiente: nominativo, acusativo, genitivo, dativo y ablativo; no aparece en todo el texto palabra alguna en caso vocativo. Primero se presentan las formas del singular y luego las del plural. En cuanto terminan las referencias correspondientes a un mismo caso se pone un punto; cuando se dan dos o más grafías para un mismo caso, o aparece una palabra unida a la partícula enclítica *que*, las referencias de una y otra se separan mediante una coma. Cuando aparece la misma grafía para dos casos distintos, se podrá conocer el caso en que está usada en el texto viendo el lugar que ocupa en el índice; pero si el lugar no lo aclara, entonces se pone entre paréntesis el caso que corresponde. Por ejemplo la palabra *servi* que puede ser la forma de gerundio singular o de nominativo plural, se nota que es gerundio por ir colocada detrás del acusativo *servum* o antes del dativo *servo*; pero si no apareciera una de estas dos últimas formas en el índice, entonces se pondría con la indicación de que está usada en genitivo, de este modo: *servi* (gen.).

Los *adjetivos* se enuncian siempre, con mayúsculas, en su forma de masculino, nominativo, singular. Luego se pre-

sentan todas las formas de género masculino que aparezcan, en el mismo orden que los sustantivos. A continuación se enuncia, con mayúsculas, la forma de femenino, nominativo, singular, y se colocan las demás formas del mismo género que aparezcan. Finalmente, se enuncia con mayúsculas la forma de neutro, nominativo, singular y se dan las demás formas del mismo género. Si resulta que en un adjetivo sólo se presentan formas del género femenino o neutro, aparecerá enunciado en mayúsculas en su forma de masculino, sin dar ninguna referencia, seguida de la enunciación, también en mayúsculas, de la forma femenina o neutra y las correspondientes referencias.

Los *adjetivos en grado comparativo* o superlativo, se agrupan junto con los adjetivos en grado positivo. Se colocan después de todas las formas de los adjetivos en grado positivo. Se enuncian con mayúsculas en sus formas de nominativo singular.

Los *verbos* se enuncian con mayúsculas en primera persona del presente de indicativo, y luego se presentan con minúsculas cursivas las distintas formas correspondientes a cada uno de los tiempos. En cuanto terminan las referencias a un tiempo se coloca un punto; para separar las referencias de formas distintas del mismo tiempo se pone una coma (por ejemplo entre las de *es* y las de *est*). El orden de presentación es el siguiente: primero la voz activa, conforme a este esquema: 1) indicativo: en sus tiempos simples (presente, pretérito, futuro), y luego los tiempos compuestos (pretérito perfecto, pluscuamperfecto, futuro perfecto); 2) subjuntivo en sus tiempos simples (presente, pretérito) y compuestos (perfecto y pluscuamperfecto); 3) imperativo; 4) infinitivo (presente, pretérito y futuro); 5) gerundio, y 6) participio activo (presente y futuro, y la forma perifrástica activa). Luego la voz pasiva, conforme al mismo esquema, pero colocando el gerundio (y las formas de perifrástica pasiva) en vez del gerundio y el participio pasivo en vez del participio activo. Cuando la misma forma verbal puede corresponder a dos tiempos distintos, se puede conocer el tiempo que representa por el lugar que ocupa, y si esto no fuera suficiente, entonces el tiempo correspondiente se indica entre paréntesis.

Como los participios (activos o pasivos) son sustantivos o adjetivos, se enuncian en el lugar que les corresponde dentro del verbo al que pertenecen como sustantivos o adjetivos, esto es, con mayúsculas y seguidos de las distintas formas en que aparezcan, agrupadas en el orden que corresponde a los sustantivos o adjetivos.

Los *pronombres* se enuncian en su forma de masculino, nominativo, singular. Sus distintas formas se presentan siguiendo el orden de casos establecido, y distinguiéndose las formas de masculino, femenino y neutro, como se hace respecto de los adjetivos.

Cuando una misma grafía puede corresponder a dos o más palabras, por ejemplo a un pronombre y a un adjetivo, o a un sustantivo y a un adverbio, se indica entre paréntesis a cuál corresponde.
